

2.6.2

The college regularly evaluates the attainment of Programme Outcomes, Programme Specific Outcomes and Course Outcomes primarily on the basis of the performances of the students in formative and summative assessment in the courses.

The Programme Outcomes are measured on the basis of the marks obtained by the students in the concerned external and internal examinations.

The sessional and other internal examinations conducted by the college as per procedure prescribed by the affiliating university help to observe the specific knowledge and skills of the students.

Viva voce and practical examinations in certain subjects are important tools to measure the learning outcomes.

Field Visit and Case Study Reports, different academic project reports, home assignment prepared by the students, act as tools to measure their knowledge, understanding, skills and learning outcomes.

The departments organize departmental seminars, group discussions, talks, subject oriented quizzes and debates and parent- teachers meet regularly to review the teaching- learning and evaluation process. The college has a Career Counseling Cell and conducted mentoring classes to resolve various academic and psychological problems to offer proper guidance to the students which act as a method of indirect assessment strategy.
